Benefits:

Save Mount Diablo, a 501(c)(3):

Since Save Mount Diablo's founding in 1971, preserved open space has increased from less than 7,000 acres to over 10,000 acres in over 40 parks. Mount Diablo is still threatened by development. That could mean the loss of wildlife corridors, ecosystems and recreational opportunities. Your support will preserve these natural lands forever to safeguard our quality of life, including the quality of our air, water and views.

Mount Diablo Interpretive Association:

The Mount Diablo Interpretive Association supports interpretive activities at Mount Diablo State Park. The association helps park staff with interpreting the park to more than one million visitors each year. Through funding an array of educational programs, the association fosters appreciation for, and the enlightened use of, Mount Diablo State Park. MDIA is proud to have played a major part in raising funds for the construction of the Museum atop the summit of Mt. Diablo and the development and operation of the Mitchell Canyon Interpretive Center.
